Pro Tem Comings and Representative Crafts, chairman of the house finance committee, arrived yesterday and were closeted with Governor Nash in conference on the code. Senator Harrison has a plan of his own. He thinks the council should have purely legislative powers and that the mayor, auditor, treasurer, solicitor and head of A Clairvoyant Had No Trouble in department of improvements and constitute them a board of administration with power to grant frachises, make contracts and fix the tax rate.

It has been definitely decided to reduce the line of demarkation between cities from 15,000 to 10,000, and strong efforts will be made to force it down lower. Governor Nash has proposed that each city be permitted to choose what form of government it desires, the board plan, federal plan or combination of both.

A Thief Entered an Unlocked Door and Stole Several Dollars.

BOLD ROBBERY

Robbers of the boldest character are in the East End. and warning is now given that when a housewife leaves her door it should be locked se curely. If not, when she returns something valuable may be missing.

A robber entered the home of Mrs. J. M. Shingleton, in Helena, yesterday, stole a pocketbook containing from \$4 to \$5, and left as unobserved as he had came. Who he is and where he came from are questions the family would like answered.

Mrs. Shingleton, with other members of the household and several neighbors left their home between 2 and 3 o'clock yesterday afternoon to attend the funeral of Mrs. James Martin. The party was passed by a stranger who inqured about a residence that no person ever heard of, and the women in telling the man they knew no such person, directed their attention in another direction.

The stranger walked past the Shingleton home, it was thought, but instead he walked in at an open door, entered the dining room, opened a cupboard, picked up a pocketbook, emptied the change into his hand and left. The women have a slight clue and are making an investigation on their own account. Mr. Shingleton was at work at the time, and knew nothing of the robbery until he returned home in the

Inquire of WILLIAM H. VODREY, HAS OVERTAKEN IT

No more are stones being thrown Vanport, Pa., Is at Present Adding Rapidly to Its List of Industries.

Largely Increased Capacity in That Line-Steam And Traction Railway Extensions to the Town Are Promised at an Early Date.

Vanport, Pa., is forging anead and will in less than two years blossom out into one of the most prosperous little towns skirting the Ohio river in the Beaver valley, so says C. H. Sebring, a wealthy land owner of that place, who was a visitor in the city last evening, having come to this sec tion to purchase mules for the clay mine of the Gloniger fire brick yard o.

Mr. Sebring states that there are four fire brick yards now in full operation in Vanport-Glonger's, Speen Bros.', Moore's and the Dando.

In speaking of the Speer Bros.' yard these gentlemen also being well known bankers of Pittsburg, he states that about a year ago he sold Messrs Cristler & Douglass, of Pittsburg. 20 acres of his coal and clay lands for a neat sum. They in turn disposed of the property to the Speer Bros. for For sale at \$52,000. These latter gentlemen have wonderfully improved the plant, and are at present putting in a new clay crusher and adding other big improve ments in the way of new kilns. The Gloniger yard is also addding a new clay crusher, while the Dando Brick company and the Moore yards are making many improvements in the way of machinery. These four yards are turning out on the average about 30,000 brick per day.

Mr. Sebring states that he still possesses 40 acres of valuable coal and clay lands, containing an 11-foot vein of fire clay and a 14-foot vein of silica, Mrs. William Finley is the guest of for which he has already been offered friends at Hookstown. She left for that the sum of \$10,000, but refused it. He is of the opinion, however, that the land will soon be purchased and an other brick yard builded on the spot.

Some time ago a coterie of Pittsburg iron and steel capitalists pur chased the farms of Messrs. Moore, Purdy, Mitchell and a number of others, for which they paid the princely sum of \$200,000. Since this purchase Invites Business and they have interested themselves in the extension of what is known as the Word was received in the East End Marginal railway, an extension fron. sion was not only to afford an outlefor the brick yards along the valley, by a competing line of railway, but it is the intention of the Pittsburg capitalists to build new and extensive industries of iron and steel and other lines of manufacture along this portion

Coupled with these contemplated improvements, the Beaver Vallely Trac tion company are extending their street railway line to the extrem southern end of Vanport, and have in contemplation the extension of the road down the valley, forming a connecting link with East Liverpool. The work as far as Vanport will be completed this summer.

Mr. Sebring further states that in has discovered a big deposit of copper ore on his lands, and in comparison with ores from other parts of the country has proven to be equally valuable. He does not desire to particularly interest himself in the development of either the clay or ore lands but is enthusiastic and modest too, over the future prospects of his progressive little town, and will perhaps share quite largely in the benefits accruing from its future development.

A PEACE WARRANT

MRS. MAGGIE JACOBS HAD TO PROMISE TO BE GOOD.

She First Brought an Assault and Bat tery Suit Against a Neighbor's Child.

After further considering her trou bles with the Blankenship family, o the East End, Mrs. Maggie Jacobs re turned to the office of Squire McLane vesterday afternoon, and acting for her ten-year-old daughter, filed an affidavit against Blankenship's daughter. of about the same age, charging her with assault and battery. The case was set for a hearing at 7 o'clock last

Witnesses for both sides appeared, and were dead bent upon offering testimony, but the squire heard enough from them without putting them under oath to convnce him that it was six of one and a half dozen of the other, so he dismissed the case.

All but Mrs. Blankenship repaired from the court's presence immediately. He filed an affidavit for the arrest of Mrs. Jacobs, asking that she be placed under a peace warrant for the reason, as alleged, that she will kill, wound, or beat his child, or commit some other offense against his personal property. He stated that Mrs. Jacobs trotted up and down past his home yesterday morning with a hatchet in her hand threatening to kill anyone who dared molest her.

Constable Powell, armed with the warrant for the arrest of Mrs. Jacobs. found her in the East End this morning and she was taken forthwith before the squire, who released her on her own recognizance after she had home last evening from an extended promised to keep the peace for one

Immediately after a wedding which took place in Washington the best man started for South Africa, where he remained more than a year. On his return, says a writer in Harper's Magazing he was given a dinner and wore evening clothes for the first time since the wedding.

In the midst of the evening, fumbling in his waistcoat pocket, he astonished himself and his friends by Where had it come from? A sudden thought flashed across his mind.

The next morning he went to the clergyman who had married his friends. "Do you remember marrying Mr. Ar-

mitage and Miss Bently about a year ago?" "Oh, perfectly," replied the clergy-

man. "I see them constantly at my church." "Well, will you pardon me if I ask you a delicate question in strict confidence. How much did you receive

as your fee?" "I will return frankness with frankness," returned the clergyman, smiling whimsically. "It was the strangest fee that ever came my way. After the ceremony the best man, with a profusion of thanks, slipped into my hand a small sliver of plug tobacco wrapped

in a wad of paraffin paper!"

A Sight For Sarah. Of a certain bishop, famous as about the plainest man in England, the Liverpool Post tells this pleasing tale: One day as this homely parson sat in an omnibus he was amazed by the persistent staring of a fellow passenger, who presently unburdened himself

as follows: "You're a parson, ain't you?"

"Well, yes; that is so." "Look 'ere, parson, would you mind comin' home with me to see my wife?" Imagining the wife was sick and needing assistance, the clergyman at great inconvenience to himself went with the man. On arriving at the house the man shouted to his wife to come downstairs, and, pointing to the

astonished parson, said, with a grin of delight: "Look 'e 'ere, Sairry. Yer said this mornin' as I wur the hugliest chap in England. Now, just yer look at this

basis and proceeded to do so. He informed the trusting public that soon his goose would lay an egg of gold each day and offered for sale stock in the Golden Goose Egg company, limited, at bedrock prices. There was a wild rush for the stock, and the promoter suddenly found himself wealthy.

He continued to sell the stock as ong as there were buyers, for he did not want to kill the goose that laid the egg. His goose continued the same ordinary fowl as before.

St. John's Eve. Curious and quaint beliefs still prevail in some parts of England concerning St. John's eve. Lassies still place their shoes, before retiring for the night, at right angles, forming a T, reciting the lines:

Hoping this night my true love to see I place my shoes in the form of a T. under the idea that their future husband will be revealed to them in dreams. Formerly supper was placed on the table with the belief that the future husband would enter by the open door. There is, too, a prevalent idea that especially fortunate are the children born on St. John's eve, the rhyme running:

Under the stars on the eve of St. John, Lucky the babe that those stars shine on.

INJUNCTIONS ASKED

TO RESTRAIN CITY FROM CON-TINUING WORK.

Petition Signed By Many Property Owners Against Street Improvement.

The paving troubles of the city seem to have only begun. The city council, by appointing an investigating committee and abiding by its report. appan into the fire. Now comes forward Charles Boyd, city solicitor, backed by a petition signed by over 400 property owners. The petition requests the solicitor to follow up his recent written ville. The Volunteer returned down opinion, bring an injunction suit against the city council, tie up all paving permanently and remove a tax

Between the last meeting of council and last Saturday the petition was drawn up and circulated. Who wrote it nobody will say. Who circulated it no one can tell. An effort was made to keep the matter quiet. Solicitor Boyd learned of it yesterday, and was asked what action he would take. He stated that he had already given his opinion. As soon as operations recommence on the streets, he said, the city would be transgressing certain very plainly laid down municipal laws.

It is claimed that since there was no money in the treasury when the improvements were ordered, council went beyond the pale of the law. An injunction suit is expected shortly, and this first publication of the facts will probably be the only notice given. The streets which, if improved, will make cause for an injunction are Maple alley, Clark avenue, Kelly avenue, Liverpool street, Commerce street from Third to Fourth, and Fourth street.

A former councilman stated that the petition calling for institution of legal action would be signed by at least 500. Hardly a person who owns property on any of the above thoroughfares but has been approached, and the number who did not sign the petition is very small.

HANGED BY THE NECK

BARBER NEARLY STRANGLED BY AN AWNING ROPE.

Fell With It About His Neck and Came Very Near Dying.

One of the most peculiar escape from death was experienced by Jim Donahue, a barber in the employ of Harry Lounds, yesterday afternoon.

For a short time Donahue was suspended by an awning rope which was tightly twisted and fastened around his throat. He became unconscious, and had he not soon been rescued he would have died.

Donahue was standing in front of the shop, where he had gone to get the air, as he was not feeling well. He suported himself with one hand grasping the rope of an awning which was over his head. The rope some how became twisted about his neck while Donahue was not aware of the fact. The young man must have fainted and half fallen, for when he was seen by Mrs. Margaret Bailey, a telephone operator, he was hanging by his neck, his face livid, and his breath coming in gasps which were steadily growing weaker.

The screams of Mrs. Bailey brought others to the scene, none of whom seemed to realize Donovan's danger. It was noticed that his body was be coming limp, and C. D. Carson, a roller at the steel mill, who arrived at that moment, had the presence of mind to whip out his penknife and cut the rope which was a hangman's noose to Donahue.

Dr. M. C. Tarr succeeded in restoring Donahue to consciousness after

Aged William L. Clark Nearly Lost His Life For Pro-Slavery Utterances.

The life of William L. Clark, one of Wellsville's oldest and most useful citizens, hangs in the balance.

He is 85 and has been here over half a century. He founded a newspaper here, the American Patriot, in his brother, who is financial editor of 1845, and published it over 25 years. It was printed on a Washington hand press by Mr. Clark himself. A copy in the possession of Henry Cooper bearing date of July 17, 1849, shows it was a 5-column, four page paper. This number contains an account of a local Fourth of July celebration in which men still living took part. It

is neat typographically. Mr. Clark discussed the slavery question, opposing abolition, and his fearless editorials more than once imperiled his life. He narrowly escaped lynching at the hands of Union soldiers, and his office was partially wrecked. He saved money from his newspaper business and owns considerable property. The Cat Nature. The cat's spirit of independence is

the most distinct characteristic of her nature. As Mme, de Custine rightly said, the cat's great difference from and, according to her sentiments, saperiority to, the dog lie in her calm insistence on selection which invariably accompanies her apparent docility. To the dog proprietorship is mastership; he knows his home, and he recognizes without question the man who has paid for, feeds, and on occasion kicks him with all the easy familiarity of ownership. He follows that man undoubting and unnoticed, grateful for a word, even thankful for an oath.

But the cat is a creature of a very different stamp. She will not even stoop to conquer, nor be tempted out of her nature by offers of reward. She absolutely declines instruction; nay, even persuasion is lost upon her for any permanent effect it may be designed to have. You may be the legal possessor of a cat, but you cannot govern her affections.

Hard Lessons In Good Manners. School chaff is wholesome in most

cases, but it may cramp what should not be eramped. As to the chaff which a man gives and gets at a university. however, we do not think there can be two opinions. It must do good, and it has not the opportunity of doing harm. Only those receive it who lay themselves open to receive it. The quiet man who wishes to read or to think apart need hardly ever come into contact with his fellows unless he so chooses. The swaggering or bumptious man, the opinionated man, the offensive man-these are certain to be shaffed, and the chaff usually goes home; not at once perhaps, but it usually gets there in the end with satisfactory consequences. The personal remark may be rude, but rudeness is often a very salutary weapon. It is certainly one of the most valuable instruments of English education. Indeed it may seem a strange thing to say, but it is surely true that continued experience of calculated, formularized and well intentioned rudeness teaches people to be polite.-London Spectator

Vercict Rendered In the Johnstown Mine Disaster.

LIES BETWEEN FOUR MEN.

Apparently, but the Verdict Does Nct Name Them-The Cambria Steel Company Evidently Took Pains to Safeguard the Men.

Johnstown, Pa., July 29.—The coroner's jury, which examined into the Polling Mill mine disaster, returned

the following verdict: "We the jury, find that Gustav Lewandrowski came to his death as the result of a gas explosion occurring in the Rolling Mill mine of the Cambria Steel company, at Johnstown, Cambria county, Pa., on the 16th day of July, 1902. That said explosion was caused by some person or persons to the jury unknown taking into room No. 2, sixth right heading, where gas was known to exist, an open lamp, and using the same in direct violation of the mine rules and regulations of the Cambria Steel com pany."

The verdict is generally accepted as justifiable in view of the evidence, the mass of which went to show that the Cambria Steel company had taken extraordinary pains to safeguard the

The project to attempt identification of the lamps used by the four men working in room No. 2, right heading, was abandoned and the finding of the jury does not locate the responsibility more definitely than These men, as previously noted, were Lewandrowski, Levoc, Schozsk and Hapke.

It will be observed that the verdict finds only on the death of one of the 112 victims, that of Lewandrowski, his case being selected as typical of the balance, as evidently all were due to the same cause.

HELD ON LIBEL CHARGES.

Secretary of Firemen's Association Arrested on Complaint of Coal Company Employes.

Wilkesbarre, Pa., July 29.-J. F. Mullahy, secretary of the Stationary Firemen's Association of Pennsylvadia, was arrested here yesterday afternoon, charged with libel. Twenty five complaints had been lodged against him by men who are now em-Toyed in various capacities by the coal companies in this section. It was alleged that Mullahy had printed a circular containing the names of the prosecutors. He classified them "nder the head of "unfair workmen." and then, so it was claimed, posted them in conspicuous places through out the region. Two women testified that they saw a man who looked like the defendant put up the circulars on telegraph poles near their homes. Lay morning

Magistrate Pollock held Mullahy in the sum of \$500 on each charge, which made the bail piece \$12,500. The bail was promptly furnished by friends of the accused. Secretary Mullahy has been very active in the strike. It was said that through his influence he has held 95 per cent of the striking firemen firm. Engineers and pumpmen have gone back to work in large numbers since the strike began, but the firemen have remained out with the miners almost to a man. At strike readquarters Mullahy's arrest on so

many warrants is termed an outrage. Sheriff Jacobs was called to Durea yesterday to disperse a mob which had gathered in the vicinity of the Warnke washery and prevented some men from going to work. When the sheriff arrived on the scene the crowd left.

The work of distributing relief among the strikers of the Wyoming region began yesterday. The most needy cases will receive aid first.

Agents from the soft coal regions in Western Pennsylvania, Ohio, In-Gana and Illinois have been in the Wyoming region the past few days hiring miners to work in the bituminous mines. Nearly 100 miners and laborers left the region yesterday for Western Pennsylvania and Ohio. More will follow today and tomorrow.

Doncher know.

They took away my oatmeat.

But instead they gave me "FORCE."

Everybody's awful good to me. Tune's nothing extra; no sentiment; nothing particularly funny in it—yet every the house goes wild. Only one way I can explain it 'FORCE' is a mighty good fast food; has a dainty, delicate flavor, is crisp and flaky—just the kind of a dish man's glad to see when he sits down to breakfast from force of habit and not because

he wants to eat. It leaves a mighty pleasant taste, and it's the memory of that pleasant he wants to eat. It leaves a mighty pleasant taste, and it's the memory of that pleasant taste that causes the audience to appreciate so thoroughly that little song."

"FORCE" is a combination of the whole of the wheat and barley malt. Wheat contains all elements necessary for the sustenance and proper regulation of every organ of the body. It combines these elements in such proportions that no organ is overworked or under-exercised in the processes of digestion and assimilation. Because malt is blended with the whole of the wheat, "FORCE" is a perfect food for the overworked or under-exercised stomach, as well as for the stomach in perfect nealth. Malt is the best natural tonic. In the manufacture of "FORCE" various chemical changes take place in both the wheat and malt which ordinarily are brought about in the first stages of normal and healthy digestion. This food, therefore, is quickly and easily assimilated, but still gives the various organs of the body sufficient exercise to keep them in perfect condition.

"FORCE" requires no cooking, and is delicious cold or warm. * FORCE " requires no cooking, and is delicious cold or warm.

A robber entered the home of Mrs. J. M. Shingleton, in Helena, yesterday, stole a pocketbook containing from \$4 to \$5, and left as unobserved as he had came. Who he is and where he came from are questions the family would like answered.

Mrs. Shingleton, with other members of the household and several neighbors left their bome between 2 and 3 o'clock yesterday afternoon to attend the funeral of Mrs. James Martin. The party was passed by a stranger who inqured about a residence that no person ever heard of, and the women in telling the man they knew no such person, directed their attention in another direction.

The stranger walked past the Shingleton home, it was thought, but in stead he walked in at an open door entered the dining room, opened a cup board, picked up a pocketbook, emp tied the change into his hand and left. The women have a slight clue and are making an investigation on their own account. Mr. Shingleton was at work at the time, and knew nothing of the robbery until he returned home in the

Vanport, Pa., is forging anead and will in less than two years blossom out into one of the most prosperous little towns skirting the Ohio river in the Beaver valley, so says C. H. Se bring, a wealthy land owner of that place, who was a visitor in the city last evening, having come to this sec tion to purchase mules for the clay mine of the Gloniger fire brick yard o.

Mr. Sebring states that there are ramps. Too much cold water is said four fire brick yards now in full operation in Vanport-Glonger's, Speen Bros.', Moore's and the Dando.

In speaking of the Speer Bros.' yard, these gentlemen also being well known bankers of Pittsburg, he states that about a year ago he sold Messrs. Cristler & Douglass of Pittsburg 20 acres of his coal and clay lands for a new members were initiated. A few neat sum. They in turn disposed of additional applications were presented the property to the Speer Bros. for For sale at and other routine business transacted. \$52,000. These latter gentlemen have wonderfully improved the plant, and are at present putting in a new clay crusher and adding other big improvements in the way of new kilns. The Gloniger yard is also addding a new clay crusher, while the Dando Brick company and the Moore yards are making many improvements in the way of machinery. These four yards are turning out on the average about 30,000 brick per day.

Mr. Sebring states that he still possesses 40 acres of valuable coal and clay lands, containing an 11-foot vein of fire clay and a 14-foot vein of silica, for which he has already been offered friends at Hookstown. She left for that the sum of \$10,000, but refused it. He is of the opinion, however, that the land will soon be purchased and an

The object of this extension was not only to afford an outle for the brick yards along the valley, by a competing line of railway, but it is the intention of the Pittsburg capitalists to build new and extensive inlines of manufacture along this portion of the valley

Coupled with these contemplated improvements, the Beaver Vallely Trace contemplation the extension of the road down the valley, forming a connecting link with East Liverpool. The work as far as Vanport will be completed this summer.

Mr. Sebring further states that in has discovered a big deposit of copper ore on his lands, and in comparison with ores from other parts of the country has proven to be equally valuable. He does not desire to particularly interest himself in the development of either the clay or ore lands, but is enthusiastic and modest too, over the future prospects of his progressive little town, and will perhaps rool company the bonus asked by it share quite largely in the benefits accruing from its future development.

He filed an affidavit for the arrest of Mrs. Jacobs, asking that she be placed under a peace warrant for the reason, as alleged, that she will kill, wound, or beat his child, or commit some other offense against his personal property. He stated that Mrs. Jacobs trotted up and down past his home yesterday morning with a hatchet in her hand threatening to kill anyone who dared molest her.

Constable Powell, armed with the warrant for the arrest of Mrs. Jacobs, found her in the East End this morning and she was taken forthwith be fore the squire, who released her on her own recognizance after she had promised to keep the peace for one

Geese That Lay Golden Eggs.

Once upon a time there was a promoter who owned a common, everyday goose who laid the usual, ordinary goose eggs. He conceived the scheme of syndicating the goose on a gold egg basis and proceeded to do so.

He informed the trusting public that soon his goose would lay an egg of gold each day and offered for sale stock in the Golden Goose Egg company, limited, at bedrock prices. There was a wild rush for the stock, and the promoter suddenly found himself wealthy.

He continued to sell the stock as long as there were buyers, for he did not want to kill the goose that laid the egg. His goose continued the same ordinary fowl as before.

St. John's Eve.

Curious and quaint beliefs still prevail in some parts of England concerning St. John's eve. Lassies still place their shoes, before retiring for the night, at right angles, forming a T, reciting the lines:

Hoping this night my true love to see I place my shoes in the form of a T, under the idea that their future husband will be revealed to them in dreams. Formerly supper was placed on the table with the belief that the future husband would enter by the open door. والمناب **INJUNCTIONS ASKED**

TO RESTRAIN CITY FROM CON-TINUING WORK.

Petition Signed By Many Property Owners Against Street Improvement.

The paving troubles of the city seem to have only begun. The city council, by appointing an investigating committee and abiding by its report, apa petition signed by over 400 property owners. The petition requests the solicitor to follow up his recent written opinion, bring an injunction suit against the city council, tie up all paving permanently and remove a tax

Between the last meeting of council and last Saturday the petition was drawn up and circulated. Who wrote it nobody will say. Who circulated it no one can tell. An effort was made to keep the matter quiet. Soliciton Boyd learned of it yesterday, and was asked what action he would take. He stated that he had already given his opinion. As soon as operations recommence on the streets, he said, the city would be transgressing certain very plainly laid down municipal laws.

It is claimed that since there was no money in the treasury when the improvements were ordered, council went beyond the pale of the law. An injunction suit is expected shortly, and this first publication of the facts will probably be the only notice given. The streets which, if improved, will make cause for an injunction are Maple alley, Clark avenue, Kelly avenue, Liverpool street, Commerce street from Third to Fourth, and Fourth street.

A former councilman stated that the petition calling for institution of legal in the possession of Henry Cooper action would be signed by at least 500. Hardly a person who owns property on any of the above thoroughfares but has been approached, and the number who did not sign the petition is very small.

HANGED BY THE NECK

BARBER NEARLY STRANGLED BY AN AWNING ROPE.

Fell With It About His Neck and Came Very Near Dying.

One of the most peculiar escapes from death was experienced by Jim Donahue, a barber in the employ of Harry Lounds, yesterday afternoon.

For a short time Donahue was suspended by an awning rope which was tightly twisted and fastened around his throat. He became unconscious, and had he not soon been rescued he would have died.

Donahue was standing in front of the shop, where he had gone to get the air, as he was not feeling well. He suported himself with one hand grasping the rope of an awning which was over his head. The rope some how became twisted about his neck while Donahue was not aware of the fact. The young man must have fainted and half fallen, for when he was seen by Mrs. Margaret Bailey, a telephone operator, he was hanging by his neck, his face livid, and his breath for some time a soap factory. When tences under the habitual criminal ate the mill has also been added. A coming in gasps which were steadily growing weaker.

The screams of Mrs. Bailey brought others to the scene, none of whom seemed to realize Donovan's danger. It was noticed that his body was becoming limp, and C. D. Carson, a roller at the steel mill, who arrived at that moment, had the presence of mind to whip out his penknife and cut the rope which was a hangman's noose to Donahue.

Dr. M. C. Tarr succeeded in restoring Donahue to consciousness after

AN OLD TIME EDITOR

Aged William L. Clark Nearly Lost His Life For Pro-Slavery Utterances.

The life of William L. Clark, one of Wellsville's oldest and most useful citizens, hangs in the balance.

He is 89 and has been here over half a century. He founded a newspaper here, the American Patriot, in 1845, and published it over 25 years. It was printed on a Washington hand press by Mr. Clark mmself. A copy bearing date of July 17, 1849, shows it was a 5-column, four page paper. This number contains an account of which men still living took part. It is neat typographically.

Mr. Clark discussed the slavery question, opposing abolition, and his fearless editorials more than once imlynching at the hands of Union soldiers, and his office was partially wrecked. He saved money from his newspaper business and owns considerable property. He has always been alive to the city's interests.

Accommodating the Captain. One of the sea captains in the em-

bloy of Stephen Girard had a rural Yankee's fondness for whittling with his jackknife and on one trip succeeded in getting away with a large part of the rail, although, feeling that he was not without the artistic sense, he really regarded the rail as greatly improved in appearance. When the vessel came to Philadelphia, Girard went aboard, made a general inspection in the captain's absence and as he was about to return to shore asked one of the seamen who had been cutting the rail. The seaman told him the captain and then, afraid his telling might have unpleasant consequences roundabout way, informed that official of the interview with Girard. The Cat Nature. The cat's spirit of independence is

the most distinct characteristic of her nature. As Mme, de Custine rightly said, the cat's, great difference from and, according to her sentiments, saperiority to, the dog lie in her calm insistence on selection which invariably accompanies her apparent docility. To the dog proprietorship is mastership; he knows his home, and he recognizes without question the man who has paid for, feeds, and on occasion kicks him with all the easy familiarity of ownership. He follows that man undoubting and unnoticed, grateful for a word, even thankful for an oath.

But the cat is a creature of a very different stamp. She will not even stoop to conquer, nor be tempted out of her nature by offers of reward. She absolutely declines instruction; nay, even persuasion is lost upon her for any permanent effect it may be designed to have. You may be the legal possessor of a cat, but you cannot govern her affections.

Hard Lessons In Good Manners, School chaff is wholesome in most

cases, but it may cramp what should not be eramped. As to the chaff which a man gives and gets at a university, board of health and the quarantined however, we do not think there can be two opinions. It must do good, and it has not the opportunity of doing harm. Only those receive it who lay themselves open to receive it. The quiet man who wishes to read or to think apart need hardly ever come into contact with his fellows unless he so chooses. The swaggering or bumptious man, the opinionated man, the offensive man-these are certain to be thaffed, and the chaff usually goes home; not at once perhaps, but it usually gets there in the end with satisfactory consequences. The personal remark may be rude, but rudeness is often a very salutary weapon. It is certainly one of the most valuable instruments of English education. Indeed it may seem a strange thing to say, but it is surely true that continued experience of calculated, formularized and well intentioned rudeness teaches people to be polite.-London

LIES BETWEEN FOUR MEN.

Apparently, but the Verdict Does Nct Name Them-The Cambria Steel Company Evidently Took Pains to Safeguard the Men.

Johnstown, Pa., July 29.-The coroner's jury, which examined into the Rolling Mill mine disaster, returned the following verdict:

"We, the jury, find that Gustav Lewandrowski came to his death as the result of a gas explosion occurring in the Rolling Mill mine of the Cambria Steel company, at Johns town, Cambria county, Pa., on the 16th day of July, 1902. That said explosion was caused by some person or persons to the jury unknown tak ing into room No. 2, sixth right heading, where gas was known to exist, an open lamp, and using the same in direct violation of the mine rules and regulations of the Cambria Steel com

The verdict is generally accepted as justifiable in view of the evidence, the mass of which went to show that the Cambria Steel company had taken extraordinary pains to safeguard the mine.

The project to attempt identification of the lamps used by the four men working in room No. 2, right heading, was abandoned and the finding of the jury does not locate the responsibility more definitely than among the men employed there. These men, as previously noted, were Lewandrowski, Levoc, Schozsk and Hapke

It will be observed that the verdict finds only on the death of one of the 112 victims, that of Lewandrowski, his case being selected as typical of the balance, as evidently all were due to the same cause.

Dozen Men Stunned.

A dozen men were thrown to the ground. When the group was approached two of the men were found dead and another unconscious, while the others were stunned into a condition of helplessness.

The two dead men were removed to a tent and an effort was made to revive them, but without success. The others were restored only after the most heroic measures had been taken. The foreman said one man was

HELD ON LIBEL CHARGES.

Secretary of Firemen's Association Arrested on Complaint of Coal Company Employes.

Wilkesbarre, Pa., July 29 .- J. F. Mullahy, secretary of the Stationary Firemen's Association of Pennsylvadia, was arrested here yesterday afternoon, charged with libel. Twenty five complaints had been lodged against him by men who are now emrloyed in various capacities by the coal companies in this section. It was alleged that Mullahy had printed a circular containing the names of the prosecutors. He classified them "nder the head of "unfair workmen." and then, so it was claimed, posted them in conspicuous places through out the region. Two women testified that they saw a man who looked like the defendant put up the circulars on telegraph poles near their homes.

Magistrate Pollock held Mullahy in the sum of \$500 on each charge, which the sum of \$500 on each charge, which made the bail piece \$12,500. The bail was promptly furnished by friends of ile accused. Secretary Mullahy has said that through his influence he has held 95 per cent of the striking firemen firm. Engineers and pumpmen have gone back to work in large numbers since the strike began, but the firemen have remained out with the miners almost to a man. At strike readquarters Mullahy's arrest on so

many warrants is termed an outrage. Sheriff Jacobs was called to Durea yesterday to disperse a mob which had gathered in the vicinity of the Warnke washery and prevented some men from going to work. When the sheriff arrived on the scene the crowd left.

The work of distributing relief among the strikers of the Wyoming region began yesterday. The most needy cases will receive aid first.

Agents from the soft coal regions in Western Pennsylvania, Ohio, In-Gana and Illinois have been in the Wyoming region the past few days riring miners to work in the bituminous mines. Federal Judge Kellar Issued an Injunction Against National Secretary and Others.

Charleston, W. Va., July 29.-Upon information made before Federal District Attorney Atkinson yesterday, warrants of arrest were issued for about 15 persons, charging them with contempt of court in violating the injunction issued by Judge Keller, covering the Fiat Top coal field along the Norfolk and Western railroad. The clerk declined to give the names for whom wrarrants were issued.

Federal Judge Keller yesterday is sued an injunction against G. W. Purcell, a member of the national executive committee of the United Mine Vorkers; W. B. Wilson, national sec retary; Chris Evans, national statistician; "Mother" Jones and five others at the suit of the Gauley Mountain Coal company. It is in the same form as those heretofore issued. It was charged that Purcell, Evans, Wilson and the others were purchasing and distributing supplies to feed the strikers in this district.

Murdered Americans Did Not Heed Advice Given by Inspector of Cebu.

Washington, July 29.-A copy of a Manila paper has been received at the ar department giving information concerning the trip of the teachers who were murdered in the island of Cebu some time ago. According to a report made by Inspector Ross, of Cebu, to the chief constabulary, the tour lost teachers were warned by him not to go into the interior, but they insisted that it was safe, and took the risks. The article continues:

"They talked with the inspector about their expedition and he advised them if they went too far in a certain direction they would be likely to run across an hombre called Adoy, a member of the notorious Cabal family, much feared by the natives. A member of this family had been killed a week or two prior to this conversation, and this was not supposed to make it any more desirable for any white person to fall into Adoy's power. The inspector inquired if any of the rarty had pistols. They answered in the negative. He repeated his warning, but they went despite this warn-

When Moore Sang.

In singing his own songs Moore altered the arrangement of the airs and sang the first part of each verse twice over at the beginning instead of as a refrain at the end. In that glorious song of his, "Oh, the Light Entrancing!" Moore's own singing of it was a matchless treat. With head upraised, he seemed almost to revel in the fresh morning light as he gazed on the "sight entrancing," and his eye sparkled as "files arrayed with helm and blade" seemed to pass before him, while a deeper feeling awoke as the passion of the song came upon him.

His voice, one of infinite modulation. but of small compass, rose clear and thrilling to its highest pitch as he sang:

Go ask you despot whether His armel bands could bring such

And hearts as ours together.

His song was an inspired recitative, and he seemed to improvise as he ran his fingers over the notes, and as the tide of thought came over him it was poured forth in harmonious cadences lowing accounts have been filed in of exquisite variety. Had he been tied said court and will be for hearing on to a chair, with the added doom of a prosy companion, he would have exploded and gone off like a rocket or a bottle of sparkling champagne.-Westminster Review.

Hay Fever.

This aggravating form of catarrh always appears at about the same time every summer, and sufferers from the disease will be glad to know that there is an absolute cure for hay fever. BLOOD WINE regularly taken prevents the formation of the catarrhal secretion, and tones up the whole system to a normal condition. It is the only remedy which can be relied on. For sale by

Everybody's awful good to me. "Tune's nothing extra; no sentiment; nothing particularly funny in it—yet every night the house goes wild. Odly one way I can explain it 'FORCE' is a mighty good breakfast food; has a dainty, delicate flavor, is crisp and flaky—just the kind of a dish that a man's giad to see what he sits down to breakfast from force of habit and not because

he wants to eat. It leaves a mighty pleasant taste, and it's the memory of that pleasant he wants to eat. It leaves a mighty pleasant taste, and it's the memory of that pleasant taste that causes the audience to appreciate so thoroughly that little song."

"FORCE" is a combination of the whole of the wheat and barley malt. Wheat contains all elements necessary for the sustenance and proper regulation of every organ of the body. It combines these elements in such proportions that no organ is overworked or under-exercised in the processes of digestion and assimilation. Because malt is blended with the whole of the wheat, "FORCE" is a perfect food for the overworked or under-exercised stomach, as well as for the stomach in perfect nealth. Malt is the best natural tonic. In the manufacture of "FORCE" various chemical changes take place in both the wheat and malt which ordinarily are brought about in the first stages of normal and healthy digestion. This food, therefore, is quickly and easily assimilated, but still gives the various organs of the body sufficient exercise to keep them in perfect condition.

"FORCE" requires no cooking, and is delicious coid or warm.

THE MOST SUCCESSFUL SALE

in the history of this store closed last evening at 9 o'clock when the "Emory Mill Remnant Sale" ceased to be. We attribute the marked success of the sale principally to the following facts:-

1st .- WE GAVE YOU WHAT WE ADVERTISED-AS WE ALWAYS DO.

2nd -YOU ADVERTISED WHAT WE GAVE YOU.

3rd. -THE GOODS OFFERED WERE REMARKABLE IN GOOD VALUES, AND LARGE IN CHOICE ASSORTMENTS.

But the stocks necessary for this business are too large to be entirely disposed of in eight days, so while the general reductions that ruled in every department the past eight days are done away with this morning, goods of a distinctively summer character in every department will be closed out at the same low prices that ruled during the sale. For instance we continue to sell:-

ALL AT HALF PRICE.

ALL Wash Shirt Waist Suits. ALL Ladies' White Shirt Waists. ALL Ladies' Colored Shirt Waists. ALL Ladies' Dressing Sacques. ABOUT 50 Ladies' Tailor Made Suits. ALL Ladies' and Children's Summer Parasols. ALL Samples of Muslin Underwear.

ALL AT HALF PRICE.

On numerous other lines of summer goods the discounts run from 10 to 25 per cent. off former prices. Many desirable bargains in short lengths and oddments left from the sale. It will pay you to keep coming every day or so and see what we are offering. A dollar will do double duty in summer merchandise.

#### **BOLD ROBBERY**

A Thief Entered an Unlocked Door and Stole Several Dollars.

Robbers of the boldest character are in the East End. and warning is now given that when a housewife leaves her door it should be locked securely. If not, when she returns something valuable may be missing.

A robber entered the home of Mrs. J. M. Shingleton, in Helena, yesterday, stole a pocketbook containing from \$4 to \$5, and left as unobserved as he had came. Who he is and where he came from are questions the family would like answered.

Mrs. Shingleton, with other members of the household and several neighbors left their home between 2 and 3 o'clock vesterday afternoon to attend the funeral of Mrs. James Martin. The party was passed by a stranger who inqured about a residence that no person ever heard of, and the women in telling the man they knew no such person, directed their attention in another direction.

The stranger walked past the Shingleton home, it was thought, but instead he walked in at an open door, entered the dining room, opened a cupboard, picked up a pocketbook, emptied the change into his hand and left. The women have a slight clue and are making an investigation on their own account. Mr. Shingleton was at work at the time, and knew nothing of the robbery until he returned home in the evening.

MRS. MAGGIE JACOBS HAD TO PROMISE TO BE GOOD.

She First Brought an Assault and Battery Suit Against a Neighbor's Child.

After further considering her troubles with the Blankenship family, of the East End, Mrs. Maggie Jacobs returned to the office of Squire McLane vesterday afternoon, and acting for her ten-year-old daughter, filed an affidavit against Blankenship's daughter of about the same age, charging her with assault and battery. The case was set for a hearing at 7 o'clock last

Witnesses for both sides appeared, and were dead bent upon offering testimony, but the squire heard enough from them without putting them under oath to convnce him that it was six of one and a half dozen of the other, so he dismissed the case.

All but Mrs. Blankenship repaired from the court's presence immediately. He filed an affidavit for the arrest of Mrs. Jacobs, asking that she be placed under a peace warrant for the reason, as alleged, that she will kill, wound, or beat his child, or commit some other offense against his personal property. He stated that Mrs. Jacobs trotted up and down past his home yesterday morning with a hatchet in her hand threatening to kill anyone who dared molest her.

Constable Powell, armed with the warrant for the arrest of Mrs. Jacobs, found her in the East End this morning and she was taken forthwith be fore the squire, who released her on her own recognizance after she had promised to keep the peace for one

Geese That Lay Golden Eggs. Once upon a time there was a promoter who owned a common, everyday goose who laid the usual, ordinary goose eggs. He conceived the scheme of syndicating the goose on a gold egg basis and proceeded to do so.

He informed the trusting public that soon his goose would lay an egg of gold each day and offered for sale stock in the Golden Goose Egg company, limited, at bedrock prices. There was a wild rush for the stock, and the promoter suddenly found himself wealthy.

He continued to sell the stock as long as there were buyers, for he did not want to kill the goose that laid the egg. His goose continued the same ordinary fowl as before.

Waited For a Yawn.

Two young fellows recently went out on a shooting expedition, driving to their destination in a trap. They had excellent sport, and toward nightfall they returned to where they had hobbled their horse and were proceeding to hitch up when they discovered that neither of them knew the way to do it. In about an hour they had most of the harness on; but, try as they would, they could not get the bit into the horse's mouth. At last one of them sat down in despair, and his compan-

Between the last meeting of council and last Saturday the petition was drawn up and circulated. Who wrote it nobody will say. Who circulated it no one can tell. An effort was made to keep the matter quiet. Solicitor Boyd learned of it yesterday, and was asked what action he would take. He stated that he had already given his opinion. As soon as operations recommence on the streets, he said, the city would be transgressing certain very plainly laid down municipal laws.

It is claimed that since there was no money in the treasury when the improvements were ordered, council went beyond the pale of the law. An injunction suit is expected shortly, and this first publication of the facts will probably be the only notice given. For a short time Donahue was suspended by an awning rope which was placed the derailed cars and engine purpose of the act to liberate these tightly twisted and fastened around his throat. He became unconscious, and had he not soon been rescued he would have died.

Donahue was standing in front of the shop, where he had gone to get the air, as he was not feeling well. He suported himself with one hand grasping the rope of an awning which was over his head. The rope some how became twisted about his neck while Donahue was not aware of the fact. The young man must have fainted and half fallen, for when he was seen by Mrs. Margaret Bailey, a telephone operator, he was hanging by his neck, his face livid, and his breath coming in gasps which were steadily growing weaker.

The screams of Mrs. Bailey brought others to the scene, none of whom seemed to realize Donovan's danger. It was noticed that his body was becoming limp, and C. D. When the vessel came to Philadelphia, Girard went aboard, made a general inspection in the captain's absence and as he was about to return to shore asked one of the scamen who had been cutting the rail. #### The Cat Nature.

The cat's spirit of independence is the most distinct characteristic of her nature. As Mme. de Custine rightly said, the cat's great difference from and, according to her sentiments, saperiority to, the dog lie in her calm insistence on selection which invariably accompanies her apparent docility. To the dog proprietorship is mastership; he knows his home, and he recognizes without question the man who has paid for, feeds, and on occasion kicks him with all the easy familiarity of ownership. He follows that man undoubting and unnoticed, grateful for a word, even thankful for an

But the cat is a creature of a very different stamp. She will not even stoop to conquer, nor be tempted out of her nature by offers of reward. She absolutely declines instruction; nay, even persuasion is lost upon her for any permanent effect it may be designed to have. You may be the legal possessor of a cat, but you cannot govern her affections.

It must do good, and it has not the opportunity of doing harm. Only those receive it who lay themselves open to receive it. The quiet man who wishes to read or to think apart need hardly ever come into contact with his fellows unless he so chooses. The swaggering or bumptious man, the opinionated man, the offensive man-these are certain to be shaffed, and the chaff usually goes home; not at once perhaps, but it usually gets there in the end with satisfactory consequences. The personal remark may be rude, but rudeness is often a very salutary weapon. It is certainly one of the most valuable instruments of English education. Indeed it may seem a strange thing to say, but it is surely true that continued experience of calculated, formularized and well intentioned rudeness teaches people to be polite.-London Spectator

Apparently, but the Verdict Does Nct \*Company Evidently Took Pains to Safeguard the Men.

Johnstown, Pa., July 29.-The coroner's jury, which examined into the Polling Mill mine disaster, returned the following verdict:

"We the jury, find that Gustav Lewandrowski came to his death as the result of a gas explosion occurring in the Rolling Mill mine of the Cambria Steel company, at Johnstown, Cambria county, Pa., on the 16th day of July, 1902. That said explosion was caused by some person or persons to the jury unknown taking into room No. 2, sixth right heading, where gas was known to exist, an open lamp, and using the same in direct violation of the mine rules and regulations of the Cambria Steel com pany."

The verdict is generally accepted as justifiable in view of the evidence, the mass of which went to show that the Cambria Steel company had taken extraordinary pains to safeguard the mine.

The project to attempt identification of the lamps used by the four men working in room No. 2, right heading, was abandoned and the finding of the jury does not locate the responsibility more definitely than These men, as previously noted, were Lewandrowski, Levoc, Schozsk and

#### Secretary of Firemen's Association Arrested on Complaint of Coal Company Employes.

Wilkesbarre, Pa., July 29.-J. F. Mullahy, secretary of the Stationary Firemen's Association of Pennsylva 4tia, was arrested here yesterday afternoon, charged with libel. Twenty five complaints had been lodged against him by men who are now em-Toyed in various capacities by the coal companies in this section. It was alleged that Mullahy had printed a circular containing the names of the prosecutors. He classified them ander the head of "unfair workmen." and then, so it was claimed, posted them in conspicuous places through out the region. Two women testified that they saw a man who looked like the defendant put up the circulars on telegraph poles near their homes.

Magistrate Pollock held Mullahy in the sum of \$500 on each charge, which made the bail piece \$12,500. The bail was promptly furnished by friends of the accused. Secretary Mullahy has said that through his influence he has held 95 per cent of the striking firemen firm. They took away my oatmeal, But instead they gave me "FORCE." Everybody's awful good to me. "Tune's nothing extra; no sentiment; nothing particularly the house goes wild. Only one way I can explain it. Fo akfast food; has a dainty delicate flavor, is crisp and flavy the site down to breakfast from force he wants to eat. It leaves a mighty pleasant taste, and it's the memory of that pleasant taste that causes the audience to appreciate so thoroughly that little song."

"FORCE" is a combination of the whole of the wheat and barley malt. Wheat contains all elements necessary for the sustenance and proper regulation of every organ of the body. It combines these elements in such proportions that no organ is overworked or under-exercised in the processes of digestion and assimilation. Because malt is blended with the whole of the wheat, "FORCE" is a perfect food for the overworked or under exercised stomach, as well as for the stomach in perfect nealth. Malt is the best natural tonic. In the manufacture of "FORCE" various chemical changes take place in both the wheat and malt which ordinarily are brought about in the first stages of normal and healthy digestion. This food, therefore, is quickly and easily assimilated, but still gives the various organs of the body sufficient exercise to keep them in perfect condition.

"FORCE" requires no cooking, and is delicious cold or warm.
